PROFILE

I am a Computer Science student and software engineer who thrives at the intersection of technical engineering and strategic leadership. Backed by solid full-stack internship experience and a string of national web development awards, I bring both hands-on programming expertise and a decisive leadership mindset to every project. From managing complex product development lifecycles to leading cross-functional teams under tight deadlines, I am dedicated to breaking down communication barriers and building high-performance digital solutions.

PROFESSIONAL EXPERIENCE

PT Puskomedia Indonesia Kreatif

March 2026 – Present

Web Developer Intern

- Collaborated in the full development lifecycle of production-scale web applications, implementing responsive user interfaces and backend logic optimized for active user traffic.
- Optimized database management within live system environments to improve query response times while ensuring user data security and integrity.
- Monitored application performance, identified bugs, and conducted regular code refactoring to minimize downtime and maintain system stability in production.

CV Prabu Bima Tech

October 2025 – January 2026

Web Developer Intern

- Designed and built case-study-based web application prototypes, focusing on crafting mobile-friendly UIs and implementing server-side business logic.
- Developed efficient experimental database architectures and schemas to simulate secure data exchange workflows between systems.
- Conducted independent troubleshooting and debugging to ensure all feature scenarios aligned perfectly with project technical specifications.

PT Nemolab Nusa Infomedia

November 2021 – December 2022

Mobile Developer Intern

- Conducted user research and requirement analysis to define core features for a mobile-based Village Information System application.
- Designed the user interface (UI) and application logic flows based on user requirement mapping.
- Implemented code using Flutter within a collaborative development environment to deliver a stable, high-utility application.

SKILL TEKNIK

- **Web Development** (Next.js, React, Laravel, Tailwind CSS, SQL)
- **Mobile Development** (Flutter)
- **Machine Learning** (Python, PyTorch, NLP, Computer Vision)

KEPEMIMPINAN, ORGANISASI & KEGIATAN AKADEMIK

Lab Assistant Member	2024 – 2025
Board Member (Robotics System Science Division) – UKM Intermedia	2024 – 2025
Member (Robotics System Division) – UKM Intermedia	2023 – 2024
Event Division Coordinator – Intermedia Information & Technology Competition	2025
Speaker – Intermedia Community Service (Intermedia Bakti Masyarakat)	2025
Speaker – Intermedia Work Program: BeSmart	2025
Event Division Member – Intermedia Community Service (Intermedia Bakti Masyarakat)	2024

PRESTASI

2nd Place – Web Development, Proxo Coris	2026
2nd Place – Web Development, UINIC	2025
2nd Place – Web Development, Software Engineering Competition	2025
4th Place – IoT, Indoneris National IT Competition	2025
3rd Place – Intelligent Systems, Robotics & Embedded Systems Competition	2025

PENDIDIKAN

Bachelor of Computer Science (Informatika) GPA: 3.92 / 4.00	2023 - Present
--	----------------

SMK Negeri 1 Purwokerto Rekayasa Perangkat Lunak	2020 - 2023
--	-------------
